

Technical Characteristics

Filtration System	Activated carbon filter in powder-coated canister, 2" depth, medical-grade HEPA filter with a metal cap and eco-safe water-soluble AFM bonding, organic cotton pre-filter
Carbon Weight	18 lbs.
Surface Area of Carbon Media	2250 acres
HEPA	Medical-grade, removes 99.97% of all airborne particles 0.3 microns in size
Surface Area of HEPA Media	3362.94 sq. in.
Micro-HEPA	N/A
CFM	360
Speed	Variable
UV Lamp	Available (except California)
Available Colors	Black, White
Voltage	115/60Hz or 230/50Hz
Amps (115V/230V)	1.3/0.5
Cord Length	8 feet
Noise Level	50-75 dB
Maneuverability	4 x 2" wheels
Filter Access	Bottom screws
Motor Details	Motor with a blower wheel
Dimensions	17.5" (height) x 15" (diameter)
Shipping Weight	Approx. 45 lbs.
Operating Weight	41 lbs.
Number of Units per Pallet	Multiple
CSA/UL	Motor & Electrical Components
